

应用领域 Possible fields of application

我们的行星减速电机产品广泛用于各个领域，为机器设备、机器人、科学仪器、建筑装饰的自动化配套，为各种各样的电动工具配套。我们有数十年设计制造各种微型减速电机的经历，具有丰富的经验。我们始终以满足顾客的需要为己任，为顾客提供解决方案，设计和制造满足顾客特殊要求的产品，因此顾客荣幸地把我们誉为“微型减速电机的摇篮”。我们具有强大的生产能力，各种行星减速电机的年产量达到了百万台。我们具有可靠的质量保证体系，具备完善的客户服务系统，保证提供优质服务。

Our planetary gear motor products are widely used in various fields, for machinery and equipment, robots, scientific instruments, automated matching architectural decoration, for a variety of power tools package. We have decades of design and manufacture of various small gear motor experience, a wealth of experience. We always put the responsibility to meet the needs of customers, to provide customers with solutions to design and manufacture products to meet customer specific requirements, so customers have the honor to us as the "cradle of small gear motor." We have a strong production capacity, annual production of various planetary gear motor has reached one million units. We have a reliable quality assurance system, with perfect customer service system to ensure quality service.

● 建筑领域：开窗和开门电机

Building: Planetary Gear Motor for Door and Window open

● 科学领域：卫星信号自动跟踪电机

Science: Planetary Gear Motor for Communication Satellite Aerial Trackers

● 建筑装饰领域：电动窗帘和遮阳电机

Architectural Decoration: Planetary Gear Motor for Electric Curtains

● 机器人领域：自行走电机

Robots: Planetary Gear Motor for Robots

● 媒体领域：自动换画广告灯箱电机

Media: Planetary Gear Motor for Advertising Lightboxes

● 园林工具领域：机器人割草机和电动工具

Garden Tools: Lawn Robots and Electric Power Tools

● 医疗设备领域：电动床手术台电机

Medical Technology: Operating Table

● 教育领域：屏幕升降和翻转电机

Education: LCD Screen Rolling

● 医疗手术领域：骨科手枪钻行星电机

Medical Pistol: Planetary Gear Motor for Medical Pistol Drills

● 机器制造领域：输送机电机

Machine Manufacturing: Planetary Gear Motor for transport
